

Tutorial: CRAW (Cubic Right-Angle Weave)

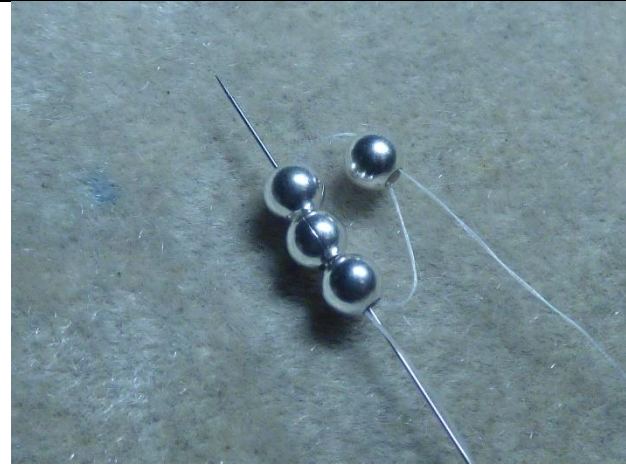

Needed Materials:

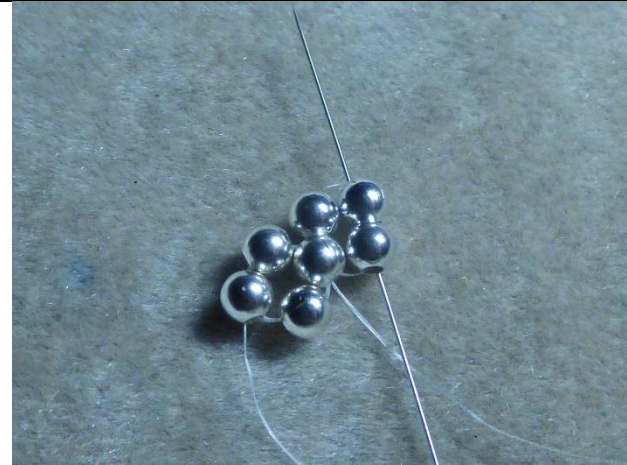

4mm beads

Fireline thread 6lb

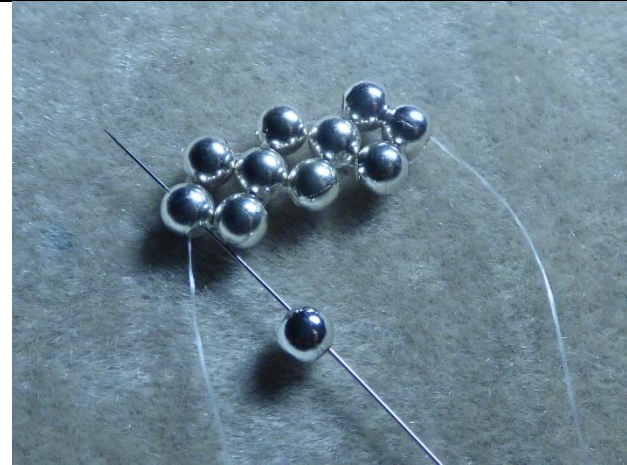

Needle #12

	<p>Step 1:</p> <p>Pick up 4 beads.</p>
	<p>Pass back through all four beads.</p>
	<p>...</p>

	<p>Pass through the next three beads.</p>
	<p>This is what it should look like.</p>
	<p>Step 2: Pick up 3 beads.</p>

	<p>Pass back around through the bead you are exiting.</p>
	<p>Pass through two of the three beads just added.</p>
	<p>Repeat step 2 to add a 3rd unit.</p>

	<p>...</p>
	<p>...</p>
	<p>This is what it should look like.</p>

	<p>Step 3:</p> <p>Now it's time to begin connecting our units. Pick up 1 bead.</p>
	<p>Pass through the first bead added.</p>
	<p>Pick up 1 bead.</p>

	<p>Pass through the last bead added.</p>
	<p>This is what it should look like.</p>
	<p>Pass through the beads until you have reached a loose (unconnected) unit.</p>

	<p>...</p>
	<p>Step 4: Here we have a loose unit. We need to connect the four beads to each other.</p>
	<p>Pass through all four beads to connect them</p>

	<p>...</p>
	<p>This is what your newly connected unit should look like.</p>
	<p>Repeat step 4 to connect the second loose unit.</p>

		...
		...
		...

	<p>...</p>
	<p>All of your units should now be connected and forming a cube.</p>
	<p>Step 5:</p> <p>Now it's time to continue building units. Pick up 3 beads and pass back through the bead you are exiting.</p>

	<p>Pass through the next bead of your unit.</p>
	<p>Pick up 2 beads and pass through both the first bead added, and the next bead of your unit.</p>
	<p>Pass through the next bead of your unit.</p>

	<p>Pick up 2 beads and once again, pass through the first bead added, and the next bead of your unit.</p>
	<p>Pass through the next bead of your unit.</p>
	<p>Pass up through the next bead.</p>

	<p>Pick up 1 bead and pass through all three beads shown.</p>
	<p>...</p>
	<p>This is what it should look like.</p>

	<p>Time to connect your new unit. Pass through all four beads to connect them.</p>
	<p>...</p>
	<p>...</p>

Repeat step 5 until you are satisfied with the length of your design.

And you are finished!
