

Tutorial: Tubular Peyote Stitch

Needed Materials:

Toho beads 11o – 2 colors (A and B)

Fireline thread 6lb

Needle #12

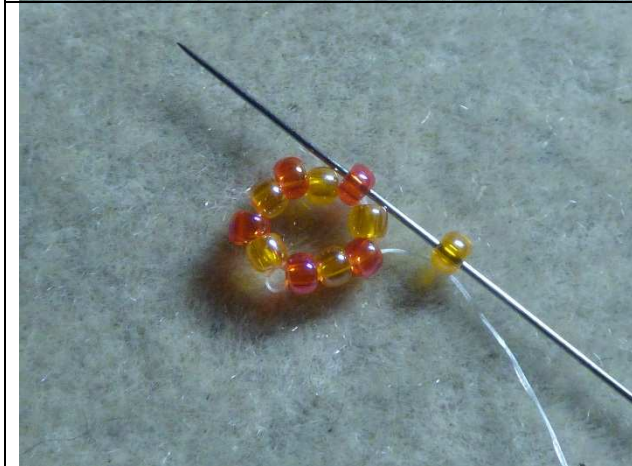

Step 1:

Pick up an alternating pattern of A and B beads, for a total of 10 beads.

Tie the beads into a circle.

Step 2:

Pick up 1 A bead, and skipping a bead, pass through the B bead.

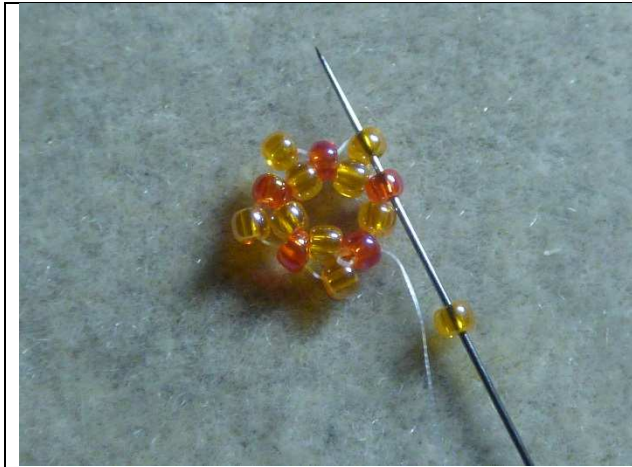

Once again, pick up 1 A bead, and, skipping a bead, pass through the next B bead.

Repeat step 2 all the way around.

...

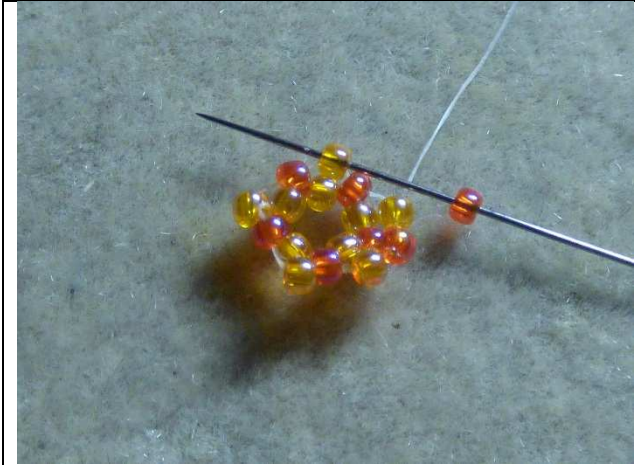

To step up so that you may begin a new row, pass through not only the B bead, but also the first A bead added in this row.

This is what it should look like.

Repeat step 2, this time adding B beads in this row.

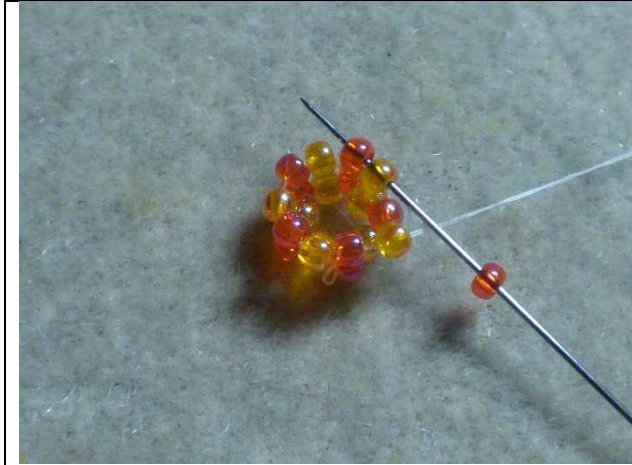

...

...

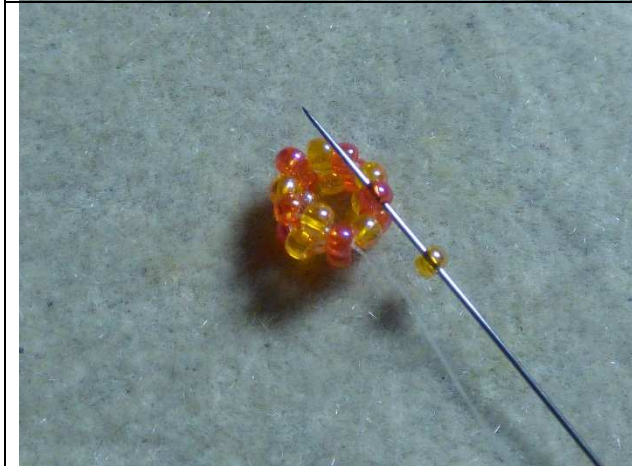

...

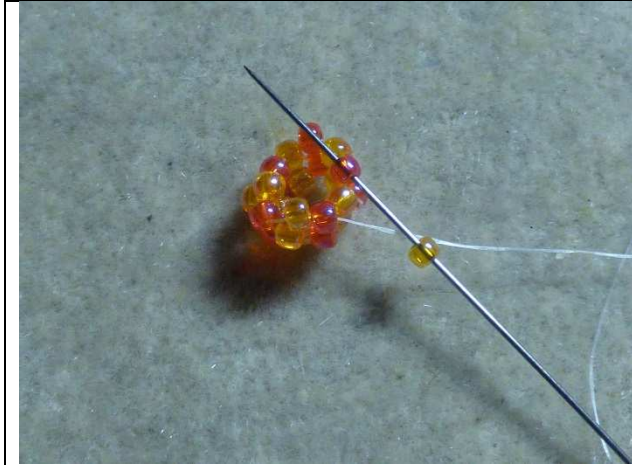

Once again, step up by passing through the A bead, and also the first B bead added to this row.

Repeat step 2 to add another row.

...

...

...

Don't forget to step up at the end of a row!

Repeat step 2 until you are satisfied with the length of your design.

And you are finished!
